

JOBS 22 BULLETIN

WELCOME TO OUR BRAND NEW JOBS 22 BULLETIN

Even at this early stage in our journey we have so much to celebrate and share. Whilst the past few months have presented challenges, including the recruitment of more than 200 staff, we're already starting to make a difference for our participants and that's thanks to the hard work of our team and delivery partners. As I write this, our team has helped 50 people back into work, a brilliant achievement that will make a difference for our participant's families and communities.

Our strapline is 'More than just a job' and I see examples of people living this value everywhere I look. I see employment coaches going above and beyond to help participants build their confidence, and our Employer Services Consultants using their local knowledge to source the best opportunities for people. Across Jobs 22, we're all focused on giving the participant the best experience possible. And by focusing on that goal, I know we can achieve incredible things in the coming months.

Aaron Henricksen, Managing Director

CELEBRATING SUCCESS

Early success stories from the Restart Scheme

GETTING BACK INTO WORK AFTER 19 YEARS!

Clare Richardson had been a full-time parent since 2002, dedicating her time and energy to raising her young family. The pandemic negatively affected her partner's business, leading to financial strain and a joint claim for Universal Credit. Clare was referred to the Restart Scheme and there she met Employment Coach, Jennifer Cabena at Jobs 22's Tamworth branch. With help from Jennifer, she's now in a flexible role that fits in with her family, and is completing a course to become a nail technician, part-funded by Jobs 22.

PLAN FOR JOBS

the UK Government is focused on protecting, supporting and creating jobs across the country.

THE KICKSTART SCHEME

Kickstart is a £2 billion fund which creates paid, 6-month work placements for over 200,000 young people who might be at risk of long-term unemployment. People aged 16 to 24 years old and on Universal Credit in England, Scotland or Wales, can be referred to Kickstart. For employers who create high quality placements, the Government will pay:

- 100% of National Minimum Wage for 25 hours for a total of 6 months.
- Associated employer NI contributions.
- Employer minimum automatic enrolment contributions.
- Training costs.

KICKSTART[®] SCHEME

THE RESTART SCHEME

The Restart Scheme aims to help one million people in England and Wales back into employment. People who have been claiming Universal Credit for 12-18 months will have access to enhanced support to find work.

Jobs 22 has been chosen to run the Restart Scheme across East Central England, which includes Bedfordshire, Leicestershire, Lincolnshire, Northamptonshire, North Buckinghamshire, Staffordshire and Warwickshire.

Working with local employers, local government and support services based in the area, Jobs 22 has created a service that gives Restart Scheme participants extra help and tailored support by removing barriers to sustainable employment.

RESTART SCHEME

“

“We’ve created a journey for Restart Scheme participants that is centered in their local communities. We prioritise working with small to medium businesses based locally, so all our partners and support providers are familiar to participants. Our regional infrastructure for the Restart Scheme means we can offer services that fuel local economies while supporting local residents back into work.”

Aaron Henricksen, Jobs 22
Managing Director

LOCAL IMPACT

A closer look at the fantastic community led projects happening in the East Central area.

MOVE is a Lottery and EU funded project that aims to help economically inactive and unemployed people to start on the road back into employment, by tackling barriers that prevent them from working. The project is being delivered across the Greater Lincolnshire LEP area, home to a wide range of communities with diverse economic challenges. The project is being delivered by 20 partners, over six years, and focuses on improving readiness to work.

“

"Collaboration rather than competition will pave the way for a better experience for those with barriers to work in Lincolnshire. From our inception, we've been aware that this is something that we cannot do alone, and what makes our offer so valuable is that participants can access a wealth of local support on their journey back into work."

Sarah Williams, Jobs 22 Partnership and Integration Manager.
